# HEALTH PROGRAM - FUNDING APPEAL - 2024

## Introduction:-

An accident eight years ago suddenly changed the life of Qamar Fatima, 43, mother of three children, whose career as a teacher ended abruptly. Her husband Sajid Hussain Shah, who runs a small shop in Rawalpindi doesn't have the financial means to take care of his wife's medical bills that have risen considerably over time, and also afford the expenses of their three children. The accident caused a cervical cord injury that led to a loss of Qamar Fatima's ability to walk normally. The calamity for this poverty stricken individual did not end here as she was diagnosed with a recurring kidney infection. Her condition has aggravated over time, leading to stones in her kidney that need to be removed immediately. The surgical procedure required estimated to cost approximately Rupees 270,000. With her husband's meager income from his small shop at about Rupees 20,000 per month, the family is just not able to afford Qamar Fatima's medical expenses. Her family has approached the **Madinatul Ilm Charitable Trust (MICT)** for financial support for the surgical procedure.

We urge our donors to treat this appeal as urgent to relieve Qamar Fatima of her agony.

MICT generally makes payments directly to an institution. In some cases, MICT reimburses expense on the basis of copies of paid bills.

## Family details: -
